INSURGENT LEADER KILLED

Rebel Army in Cuba Flushed With Victory is About to Attack City of Pinar del Rio

Throughout Island Situation Apparently Grows Worse—
New Revolutionary Bands Springing up but
Officials Express Confidence in Outcome.

Havana, Cuba, Aug. 23.—General Bandoras, negro insurgent leader, with two companions, was killed this morning in a fight with rural guards which took place between Mariano and Hoyo, Colo. The body of the general has been fully identified.

The rebel army, flushed with the victory of yesterday over the loyal guards and the capture of San Luis is now before Pinar del Rio, capital of the province of the same name. An attack on that city is momentarily expected. As the insurgent army outnumbers the government forces the fall of Pinar del Rio is likely.

Throughout the island of Cuba, the situation apparently is growing worse all the time. New revolutionary bands are springing up constantly, especially in the four western provinces. In the eastern province there has been little outward show of opposition to the government but dissatisfaction prevails there as well as in the provinces where armed men are in the field.

Government officials still maintain their ability to meet the issue. It will require about a week for the government to organize its forces to send them against the insurgents. The officials declare that when active operations against the rebels are commenced the revolution will not last three days.

Friends of the revolutionists on the other hand laugh at the statement of the government authorities. They say that if the insurgents are given a week in which to prepare the government

will never be able to subdue them.

The enlistment of government forces goes on steadily. But the character of the new soldiers is not encouraging. Most of the recruits are young men and boys utterly without experience in warfare who cannot be counted on to make much of a showing if it comes to actual fighting.

More complete reports in regard to yesterday's fighting shows that the insurgents did not win their victory without sustaining a loss of their own. In a conflict with rural guards under the command of Major Laurent near San Luis, a band of Guerra's insurgents was defeated. An unconfirmed report says that three insurgents were captured and thirty killed while the hand was routed. The defeated insurgents fled to San Luis. By that time, Guerra's entire force had taken possession of the city and Major Laurent dared not attack them.

In other parts of Havana province and in Santa Clara province the insurgent bands, under the command of various leaders, are recruiting rapidly and the movement there promises to become almost as active as in Pinar del Rio.

The boldness of the insurgents in coming to the very outskirts of Havana city in their operations shows more plainly than anything else the weakness of the government and its inability to clear even the territory immediately surrounding the capital of enemies.

PAUL STENSLAND FUGITIVE BANKER IS NOT ARRESTED

BUT GOVERNOR HAS ASKED THE
STATE DEPARTMENT FOR
REQUISITION.

CAPTURE IS EXPECTED SOON

Washington Bulletin Says That It is
Believed Missing Financier is
in Mexico.

(Bulletin.)
Washington, Aug. 23.—The governor of Illinois today requested the state department for extradition papers for the missing banker, Paul O. Stensland, president of the defunct bank at Chicago, who is believed to be in Mexico. He has not yet been arrested.

Chicago, Aug. 23.—Formal denial of the report that Paul O. Stensland, the fugitive bank wrecker, is in Augustas Calientes, Mexico, has been received in the form of a telegram signed by the mayor of that town.

While the police are thus left at sea, Pinkerton detectives are working on a clew which has led them to Europe and on the way to India.

Marius Kirkeby and other directors of the wrecked bank were informed by officials of the agency that the arrest of Stensland was believed to be only a matter of a few days.

It was declared that the private detectives engaged by the directors had struck the real trail. The failure of the Mexican clue was a sore disappointment to the Chicago police.

ENGLISH VIEW OF IT.
London, Aug. 23.—The impression continues to prevail in this country that in spite of President Roosevelt's declaration that he would not suffer himself to be a candidate for president in 1908, he is probably the man who will contend against W. J. Bryan in the next campaign. The Times says the Democrats should not bank on Roosevelt's pledge, for such pledges are by no means irrevocable. "Roosevelt," remarks the Times, "doubtless does not intend to stand, but has it ever been known, at any rate in recent years, that the nominee of a party convention has rejected the nomination?"

GOV. HARRIS TO USE MAILED FIST AGAINST DICK

EXECUTIVE SAID TO HAVE TOLD
FRIENDS SENATOR IS A
HEAVY LOAD.

HARRIS LONG BEEN RESTIVE

Washington Dispatch Says He Has
Been Asked to Take Lead of
Anti-Dick Forces.

Washington, Aug. 23.—Governor Harris is to be persuaded to show the mailed fist in Ohio political affairs. He has been asked to assume the leadership of the anti-Dick forces. Information to that effect has just reached here, coupled with the announcement that Gov. Harris has long been restive under the Dick domination and that he realizes his mistake in the appointment of a number of Dick adherents and wants to indicate by his future course in appointments that he is swayed by his own judgment and not Senator Dick's dictation.

"Dick is a heavy load for the Republican party to carry," he is reported to have told a friend recently. "He should efface himself. If he does not, we should do it for him. I do not believe, however, that it is incumbent upon me to seize the initiative in the matter."

The movement now quietly progressing is for the purpose of convincing the governor that it is his duty to take the initiative steps.

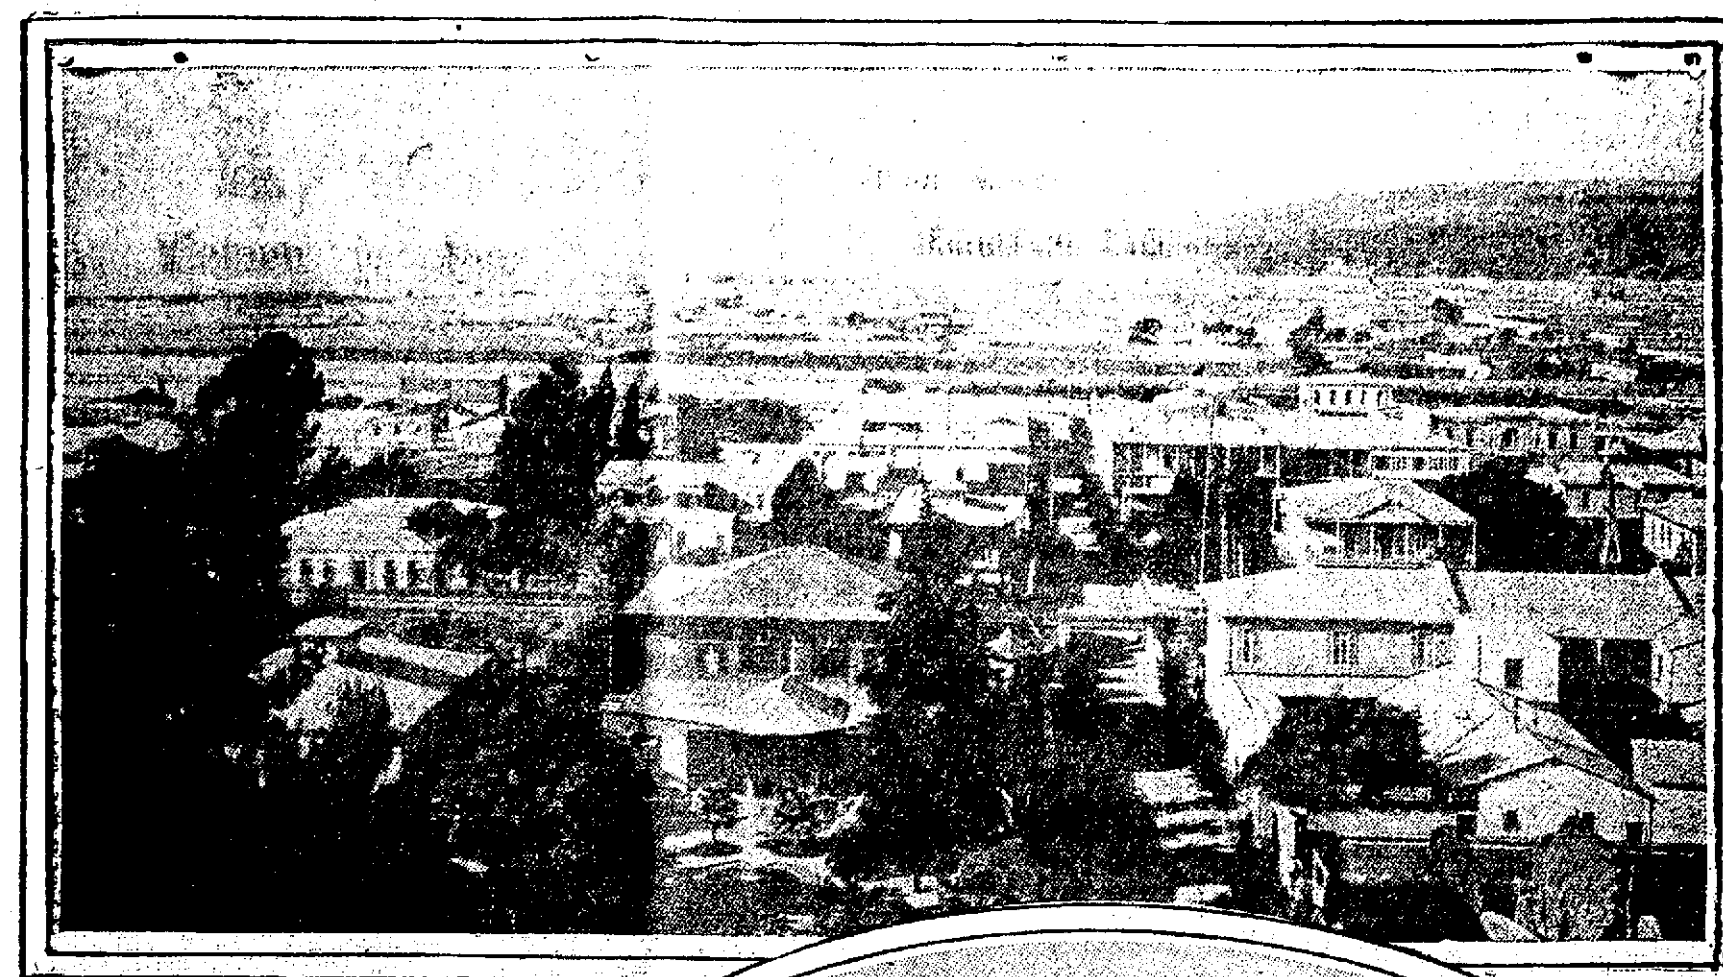

Detroit, Aug. 23.—N. E. Conger, head officer of the weather bureau here has gone to the Northwoods to escape the terrific heat. It has been impossible to locate him to notify him of his brother's death of heat prostration.

Otto Radeck, tailor at St. Louis, in presence of wife and children took acid and stood before mirror watching effect until he dropped dead. He denied to his wife he took poison.

M. J. SAGE & CO. HAVE FAILED

NEW YORK BROKERS WITH LONG
STRING OF BRANCH OFFICES
QUIT BUSINESS.

Liabilities May Reach Two Millions—
The Principal Offices are in
Eastern Cities.

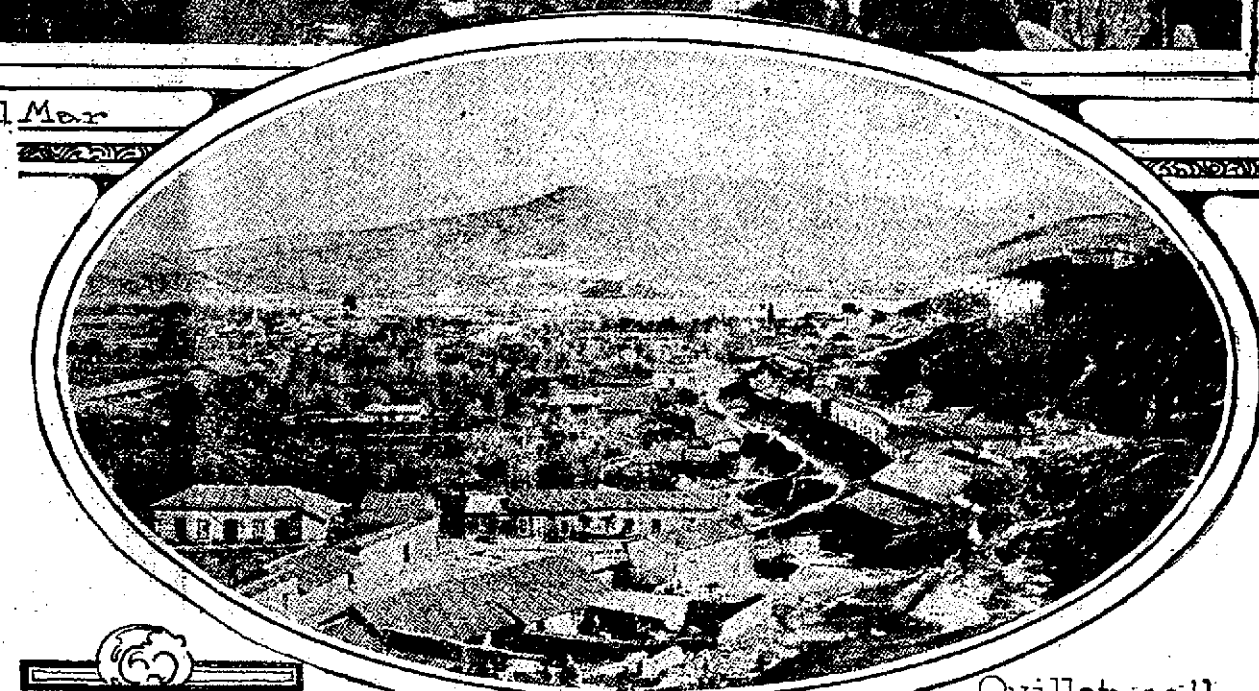

New York, Aug. 23.—Caught in the violent bull market "Al" Adams, former policy king, who went to Sing Sing branded as the "meanest criminal in New York," has welched and the 150 bucket shops operated by M. J. Sage & Co., of which Adams was backer, closed their doors today. Twenty-five thousand clients of Adams' bucket shop game are out over \$2,000,000.

Adams dug down in his pockets for a time when the market rose, but with the violent upturn of Union and Southern Pacific stocks he told Sage he had enough. The shops of the concern hung up the sign "closed" today. There will be the usual formality of asking for a receiver in New Jersey courts today. The receiver will find that the creditors will have to satisfy themselves on the office furniture, as in other bucket shop failures. The customers of the firm will lose not only all the paper profits made in the recent rise, but all the cash invested as well, it is said. When Adams was put out of the policy business three years ago, he was rated a multi-millionaire. He had made his pile, but the gambling instinct was not to be denied. Adams knew that policy, so far as he was concerned, was dead to him in the city and it was while in Sing Sing prison he engineered the formation of the brokerage firm of Sage & Company of Jersey City, N. J.

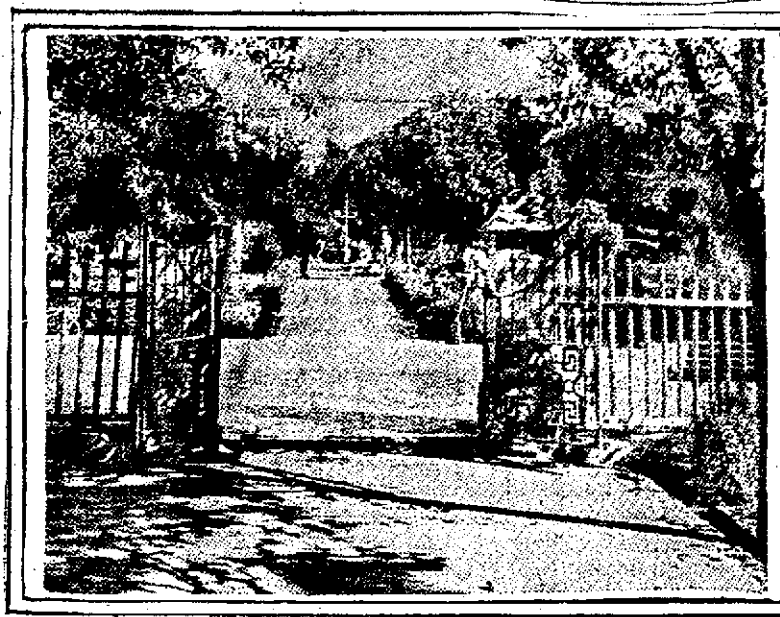

Sage was a telegraph operator and had lived experience in bucketshop business. His name was used in the firm so that the allegation might be made that he was the nephew of Russell Sage and had millions behind him. The company thrived and offices were established in fifty cities of the country with many branch offices in the larger cities. Adams paid out \$100,000 yearly in wire tolls. He ran business as he ran his policy shops with this difference. In the policy game he could fix the drawings. In the bucketshop game he had to gamble against the market quotations. Business poured into the concern from all parts of the country and the profits were enormous until the day Edward H. Harriman did his dividend act with Union and Southern Pacific. The market went against the company and clients were rejecting in thousands of dollars worth of profits. When it was seen that the market was likely to go higher Adams welched and the brokerage firm of Sage & Company quit like many others have done.

New York, Aug. 23.—M. J. Sage & Company, brokers, posted a notice at their Jersey City office informing their correspondents that they had discontinued business. The firm had branch offices in a number of cities in the east and correspondents throughout the country. The amount involved in the failure is said to be large, although no one in authority could be found to give figures. The aggregate may reach \$2,000,000.

Sage & Company was incorporated under the laws of the state of New York in 1904, with a capital stock of \$50,000. The president of the firm is Maurice J. Sage, a young man who came to this city about 12 years ago from Binghamton, N. Y.

MANY BODIES WASHED FROM GRAVES SOME ARE SWEEPED INTO BLUE RIVER AT KANSAS CITY, MO. THURSDAY

KANSAS CITY, MO., Aug. 23.—As a result of the unprecedented rainfall this morning hundreds of bodies were washed from the graves in Elmwood cemetery and strewn along a huge ditch excavated for a sewer. The corpses of women, men and children lay about scattered with mud, with their clothing disarranged and presenting a sight of great grossness. Cemetery employees hastily covered up scores of bodies by throwing earth upon them where they lay. Others were put back into the caskets and carried back to where it was supposed they had been buried. Fragments of caskets, shrouds, gravestones and floral decorations marked the path of the current. Persons living near the cemetery say several bodies were washed away into Blue river. The rainfall here today was the heaviest ever recorded in this locality.

BOILER LETS GO INJURING TWO MEN

Marietta, O., Aug. 23.—An oil well boiler on the Williamson lease at Briscoe, W. Va., five miles from here, exploded at 9 o'clock this morning and dreadfully injured Taylor Callahan, a driller, and Will Hays, a tool dresser, on the well. The explosion was a terrific one and the injured men are in a serious condition.

BURGULARS ROB THEN SHOOT A GALION O., MAN

Galien, O., Aug. 23.—C. S. Blanton, saloonier, was robbed by masked burglars last night. He was shot six times and lay on the floor for three times and a half before he was able to get up. He is in a critical condition and is expected to die. The burglars were armed with a revolver and a shotgun and a box of cartridges. The burglars were seen by a watchman and escaped.

'FRISCO FIRST TO SEND RELIEF FUND

Washington, Aug. 23.—The first aid from the United States to relieve the sufferers of the earthquake in Chili was sent by citizens of San Francisco. This information came to the state department this morning in a cablegram from Nikster Hicks at Santiago, who says: "Delivered to me \$10,000 aid from people of San Francisco." The generous contribution was sent direct.

HOT AND HUMID IS THE WEATHER

FOUR VICTIMS IN CLEVELAND
FROM HEAT PROSTRATIONS
ARE REPORTED.

Sizzling in Milwaukee and In
Chicago Hot Wave Causes Ten
Deaths.

Chicago, Aug. 23.—Notwithstanding the weather bureau's promise of relief from the intense heat spell which has blistered Chicago and the central west for the past ten days, the sun again resumed business today at the old stand. At 10 o'clock this morning the thermometer registered 86 degrees and five cases of prostration had been reported at that hour. Five deaths due to the heat occurred during the night. The weather men predict showers and cooler weather, with brisk northerly winds, but will not give bond.

Showers Have Helped.
Cincinnati, Aug. 23.—Despite the humidity of the past two days there have been but two heat prostrations in Cincinnati and neither has proved fatal. Thunder storms have kept down the intense heat.

Cleveland, O., Aug. 23.—A week's period of high temperature reached an almost intolerable degree of intensity Wednesday. Four deaths from heat prostration occurred and nearly a score of other prostrations were reported.

Sweltering at St. Louis.
St. Louis, Aug. 23.—One death and two prostrations is the local heat record for Wednesday. Two prostrations were reported from East St. Louis. The maximum temperature in St. Louis was 90.

Sizzling at Milwaukee.
Milwaukee, Aug. 23.—Four deaths and five prostrations were ascribed to the heat in Milwaukee. Thermometer registered in the vicinity of 90.

Hot Day at Chicago.
Chicago, Aug. 23.—The heat in Chicago Wednesday was responsible for 10 deaths and 29 prostrations. The maximum temperature was 92.

FIREMEN OVERCOME.

Chicago, Aug. 23.—Thirteen firemen were affected by the heat while fighting a fire in the David Bradley Manufacturing company's building this morning. Four were overcome and three others, besides suffering from the heat were injured by flying fire brands. The heat from the fire in the factory building caused a fire in the adjacent building, which was also destroyed. The loss was estimated at \$50,000. The fire was caused by a gas leak in the John Lucas Pump and Ice Company.

GARBER

Again Named Chairman of
Democratic Executive
Committee.

EDITOR H. KAMPF OF PIQUA

EX-GRANVILLE STUDENT SECRETARY
OF CENTRAL COMMITTEE.

Campaign This Year Will be Con-
ducted on Same Lines of Last
Year's Contest.

Columbus, O., Aug. 23.—As a result of the state Democratic convention the campaign this year will be conducted by the Democrats along the lines of last year's contest.

The new state central committee, of which Charles Kloebe of St. Marys is chairman and H. Kampf of Piqua is secretary, met after the convention. An executive committee for the ensuing campaign was selected, of which H. C. Garber was named as chairman, W. L. Finley secretary and Fred Heer of Columbus treasurer.

At the second day's session of the convention two names were presented for secretary of state, Dennis D. Donavin of Napoleon named Samuel A. Hoskins of Wapakoneta and

S. A. HOSKINS.

T. E. Powell of Columbus named Allen W. Thurman of Columbus. Hoskins was nominated by a vote of 553 to 382.

For commissioner of public schools the following were nominated: Darrel Joyce, Butler county; C. E. Oliver, Columbiana county; Howard Henderson, Hamilton county; Professor C. W. Haupt, Wayne county. The first ballot: Joyce 88, Oliver 131½, Henderson 186, Haupt 430½; necessary for a choice 474. During ballot for school commissioner the sergeant-at-arms was compelled to call in the police to restore order and clear the aisles. Second ballot: Joyce and Henderson withdrew. When roll call reached Franklin county Haupt's nomination was made unanimous.

For state dairy and food commissioner Newton L. Bunnell of Warren county and Rodney J. Diegle of Erie county were contestants, and aroused much confusion and challenging of votes when the roll was called. The vote as announced was 349 for Bunnell and 478 for Diegle, and the chair

R. J. DIEGLE.

man declared there was no election. A second ballot was ordered, and Diegle received 486½ votes to 404½ votes for Bunnell.

For member of the state board of public works George E. Nelsonger of Greenview, Darke county, was nominated by acclamation. The roster was again declared the party emblem on the official ballot. The state central committee was authorized to fill vacancies on the state ticket should any occur.

EIGHTH REUNION NEAR NEW WAY

NEARLY HUNDRED MEMBERS OF DUMBAULD FAMILY AT SLICE RESIDENCE.

Next Gathering Will be Held at the Home of J. M. Dumbauld, in August, 1907.

The eighth annual reunion of the Dumbauld family was held at the beautiful country home of Mr. and Mrs. Charles Slife of near New Way, on Wednesday, August 15, 1906. It was a pleasant day and before the noon hour ninety-eight relatives had gathered.

Mr. and Mrs. Slife did all in their power to make this one of the most pleasant gatherings of the family. Before the tables laden with such delicacies. The tables were decorated with ferns and pink roses, and were placed under large canopies erected on the lawn.

During the afternoon J. M. Dumbauld called for the special program which consisted of instrumental music by Mr. Jackson Shoemaker, solo by Mr. J. E. Johnson, a few recitations by the children, and appropriate remarks by Dr. D. F. Dumbauld of Blissfield, Mich., Mr. C. C. Forry of Monticello, N. Y., and James Williams of Newark.

The reunion was then invited to the home of the president, J. M. Dumbauld, the fourth Thursday in August of 1907, when it is hoped all may attend. The remainder of the afternoon was spent in social chat until a late hour when all departed to their many homes, feeling that the day had been greatly enjoyed by all present.

Those from a distance were Dr. B. A. Dumbauld and wife of Centerville, Mo.; Dr. D. F. Dumbauld, wife and son, of Blissfield, Mich.; Mr. and Mrs. A. A. Geer, San Jose, Cal.; Miss Ella Cummins, Hartford, Kas.; Mr. and Mrs. J. E. Johnson, Terre Haute, Ind.; Mrs. J. F. Shoemaker and son, Jackson, Col.; Mr. J. H. Meckling, Millersport; Mr. Forry, Ardick McMillen and daughter Helen of Newark, Mr. John S. Hess and wife, of Fredericktown.

JOIN MT. VERNON AND MARIETTA

DR. HISSEY OF ZANESVILLE SAYS HE HAS BOUGHT MT. VERNON RAILWAY LINE

Together With Lighting Plant and Proposes to Build a Road Via Zanesville.

Zanesville, Aug. 23.—Dr. Marion W. Hissey is again in the limelight. He announces the purchase of the Mt. Vernon Electric Light Company, also the Mt. Vernon Electric Railway company. The plans the local promoter has considered almost gigantic, yet with his characteristic vim and vigor Dr. Hissey says that time will see the accomplishment of all.

The interests acquired at Mt. Vernon by Dr. Hissey are highly valued. The lighting company has the patronage of all business interests in Mt. Vernon, while the electric railway operates in Mt. Vernon and extends two miles distant from the city to Lake Hiawatha park. Many improvements are promised at this latter place.

Dr. Hissey states that at Lake Hiawatha park his company owned 46 acres, a lake covering six acres and

summer cottages numbering 30 odd.

Although it would not be stated by Dr. Hissey, it was gathered from the interview granted that it is planned to join the Mt. Vernon electric railway with the proposed Zanesville and Muskingum Valley Traction company, recently incorporated by Dr. Hissey and his associates. This latter is proposed to extend from this city to Marietta, following the Muskingum river banks.

It is believed, and not denied by Dr. Hissey, that he will project an electric railway from this city to Mt. Vernon. Dr. Hissey, it is understood, has become associated with some of the most able capitalists of Ohio and of late he has secured the consideration of many of his projects with Wall street interests.

Dr. Hissey, it will be remembered, proposed and saw almost to actual completion the newly finished South-eastern Ohio Railway, Light and Power company. This road is doing much for Zanesville.

Dr. Hissey is said to have given \$100,000 for the railway and the light companies' interests. The purchase was made from the Jackson-O'Neil syndicate.

CHAINED

For Months Was the Little Boy, the Links Wearing Deep Into His Slender Leg.

Montgomery, W. Va., Aug. 23.—Justice of the Peace Davis, while horseback riding near Edgewater, yesterday, saw a little boy cross the road, dragging a heavy chain from one of his legs and carrying two buckets of water. He found that a heavy piece of chain, eight feet in length, had been fastened about the little fellow's leg. The limb was calloused and bore deep chain sores. The child's father, a miner named Samples, said his boy was hard to control, and that he had placed the chain upon him to restrain him. The chain had been there three days and nights, the father having lost the key. A chisel had to be used in freeing the boy. A warrant has been issued for the father.

COLOR LINE SQUABBLE UP TO THE PRESIDENT

Oyster Bay, N. Y., Aug. 23.—The soldier color line squabble at Brownsville, Texas, where so much friction between townspeople and colored regulars has occurred recently, was put squarely up to President Roosevelt today by Brigadier General Bell, the United States army chief of staff.

"My object is to get word direct from the president on this matter," said General Bell, "in order that we may act in the matter according to his wishes. The negro company has already been replaced at Brownsville by white troops, and has been sent to Reno, but there is still considerable feeling there and as the President's last message to the war department was a bit ambiguous I came to Oyster Bay to get his exact views."

Upon leaving Sagamore Hill Bell refused to discuss the conference with the president.

GANS STOCK IS UP

Goldfield, Nev., Aug. 23.—Gans stock went up with a rush on the report made by Dr. O'Connor, of the Miners' Union, that the boxer was in perfect physical condition. Betting became more brisk at once and the orders on Gans rose from ten to nine to ten to seven, with little Nelson money in sight. It is not unlikely that two to one will be the ringside price as the miners all favor the colored man. Gans weighs 132 1-2 and has cut down his weight as he does not want to risk going stale. Nelson yesterday about 100 women went to his fight quarters to see his training routine. Larry Sullivan, manager of Gans, has sent a 100-word invitation to President Roosevelt to attend the Gans-Nelson contest.

ETNA.

Quite a number of families are using gas.

Mr. Henry Harner has been quite poorly.

Mrs. Hattie Egolf and Miss Edna Watkins are at Jaynesville, Wis., visiting Mrs. Egolf's sister, Mrs. Clark, and family.

Wm. Schwenk is at London this week.

Quite a number attended the Reynoldsburg reunion Wednesday.

Mrs. Schwenk was at Columbus on Tuesday afternoon.

The gas company is about ready to commence drilling for gas on the T. R. Evans farm one and a half miles northeast of Etna, in Etna township.

Dean Clifton and wife were at Mrs. Holycross of Columbus is visiting at J. W. Poff's.

The infant son of Wm. Ebife and wife of Columbus was buried in the Etna cemetery Sunday.

Arthur Hagy of Pataskala is visiting his grandparents Mr. and Mrs. Hagy of this place.

Frank Sardinia and Dominic Garcia and their families engaged in battle at Buffalo, N. Y. Sardinia and Garcia both fatally hurt.

Charles Vas, 20, while swimming in Black river, at Lorain, O., was drowned in a deep hole that has caused the death of four others this summer.

BURGLAR GETS WATCH AND RINGS

DAYLIGHT ROBBERY AT RESIDENCE OF DR. AND MRS. McMILLEN.

Pocketbook and Several Pieces of Jewelry in View But Were Overlooked.

A daring burglary was committed in this city Wednesday afternoon between 1 and 3.50 o'clock. Dr. and Mrs. A. J. McMillen, eyesight specialists, who recently came here from Punksutawney, Pa., being the victims. The doctor and his wife occupy apartments at 47 North Fourth street and Wednesday afternoon when Dr. McMillen left the house he left the front door open in order to air the house, his wife being in the kitchen, and it is supposed that some one with burglarious instincts saw the open door and the invitation to enter which was extended, and took advantage of it.

About 3.30 o'clock Mrs. McMillen went to her room and found that it had been completely ransacked, the burglar securing a gold watch, three gold rings and a gold lapel button. The matter was reported to the police but no clue has been obtained. The burglary is supposed to have been the work of amateurs, as a pocketbook and several valuable pieces of jewelry which were in plain view, were left by the thief.

BURGLARS ENTER CHERRY HOME

SILVERWARE AND CUTGLASS THURSDAY.

Bloodhounds Failed to Take Scent—Several Recent Burglaries in the North End.

Sneak thieves are working in the city and very successfully too while the police seem to be powerless to get any clues upon which to work towards the capture of the lawbreakers. Sometime early Thursday morning, the residence of Mr. J. F. Cherry, No. 538 Hudson avenue was entered by unknown burglars and articles valued at \$150 were carried away. Although the police were notified as soon as the burglary was discovered, absolutely no clue was left which would lead to the apprehension of the criminals.

The investigation of the officers disclosed the fact that the burglars first entered the back porch which is enclosed by lattice work. An opening near the lock was sawed and after the refrigerator was rifled, the burglars took a step ladder which was also found on the porch, placed it against the house and entered a dining room window, which was nearly eight feet from the ground.

Every bit of silverware on the sideboard and a large quantity of fine china and cut glass were taken away by the thieves. Mr. Cherry estimates his loss at \$150.

Chief Sheridan, who was notified of the burglary immediately after its discovery, engaged Dr. D. M. Smith and his bloodhounds to track the thieves. After repeated efforts to get the dogs to take the scent it was given up. It is believed the dogs were frightened by the excitement of their fast trip to the scene of the burglary in the auto.

The police are now working on the case, though there was no clue left as to the identity of the men. A gang of tramps and bums are infesting the city and an effort should be made to root these out of the community. This is the third or fourth burglary in this end of town within the last few days.

TWICE SAVED

From a Watery Grave, But the Rescuer Let the Madman Drown on His Third Attempt.

Pittsburg, Pa., Aug. 23.—After three attempts Michael Hinchinich succeeded in drowning himself in the Allegheny river. Hinchinich is believed to have been crazed by the extreme heat of the past few days.

Yesterday he walked down to the river and threw himself off a sandflat. David Linderman, watchman on the flat, jumped in after him and, after a battle, pulled him out. Within a few minutes Hinchinich again leaped into the water. Again Linderman went after him and fought him to shore. By this time Linderman was exhausted, and Hinchinich leaped in a third time and drowned before help could reach him.

GREELY'S CRITICISM

Washington, Aug. 23.—Major General Greely, commanding the Pacific division of the army, has filed a protest in his annual report against departmental methods. He urges the abolition of divisions and the estab-

lishment of brigade posts. He cites experiences connected with the extraordinary duties incident to the San Francisco earthquake to support his contentions. There Department Commander Funston was on hand before Greeley, his superior, knew of it. Division and department commands there cover the same territory and one includes the other. "In regard to many duties, the department commander takes orders direct from the war department," he says, "leaving the division commander in a measure ignorant of the military operations with the division."

ANGRY LOVER

Rode Up on Horseback, Shot and Killed the Girl's Escort Then Galloped Away.

Salversville, Ky., Aug. 23.—John England was shot and killed at Middle Creek, this county, by Boyd Sturgeon, it is alleged, who made his escape. A Baptist meeting was being held at the home of James Adams, and both Sturgeon and England were present, paying court to a young woman. England accompanied the girl home. They were standing in the doorway when Sturgeon rode up, and, drawing his revolver, shot England in the presence of the girl, she declares. Sturgeon rode away at full speed.

NEWS OF TOWNS NEAR NEWARK

HI NDREDS ATTENDED ANNUAL REUNION HELD IN VILLAGE OF REYNOLDSBURG.

Linen Shower at Granville—Zanesville Bankruptcy—Buckeye Lake Picnic.

Reynoldsburg, Aug. 23.—Hundreds of former residents of Reynoldsburg gathered yesterday to celebrate the sixteenth annual reunion of the Reynoldsburg association. J. H. Long, president of the association, and Miss Dora May, secretary, looked after the visitors and saw that they enjoyed themselves.

ZANESVILLE BANKRUPTCY. Columbus, Aug. 23.—A petition in bankruptcy was yesterday filed in the United States court by Thomas L. Lindsay and Roy E. Bennett of the partnership, Lindsay & Bennett, of Zanesville. Their liabilities are \$1,248.55 and their assets are \$672.32.

BUCKEYE LAKE PICNIC. Columbus, Aug. 23.—Next Sunday the Troy Laundry company will take its 250 employees on an outing to Buckeye Lake. Quite an elaborate program of amusement events has been prepared. Owing to heavy contracts which require constant operation, the company found it impossible to join the other laundries of the city on their trip to Cedar Point.

LINEN SHOWER. Granville, Aug. 23.—On Wednesday evening Miss Faye Marlowe delightfully entertained a number of friends who gave a linen shower to Miss Juanita Belford, whose marriage with Mr. Guckert takes place Wednesday evening, September 5, at the home of Miss Belford. Many beautiful and useful linen articles were showered upon Miss Belford and the occasion was a most enjoyable one. Dainty and bountiful refreshments were served during the evening.

NOT ALEXANDRIA MAN. Alexandria, O., Aug. 23.—It is now claimed that Nick Francisco, the young Italian lad who is being held by the Italian government, is not a resident of Alexandria, Licking county, but is from an altogether different family from the Franciscos of St. Albans township. The only Franciscos in that township are those descended from J. B. Francisco who came here about 75 years ago and married into the Van Ness family, one of the most prominent families of the township. Charles Francisco is a son of Mr. J. B. Francisco, and is at present conducting a bicycle store on North High street, Columbus. Nick is a Columbus man.

EXPLOSION KILLS HENRY FITZSIMMONS AT CHATTANOOGA

J. V. Fitzsimmons of Pittsburg, formerly of Newark, has received the sad news of the death of his brother, Henry, of Chattanooga, Tenn., his death being caused by an explosion. The Fitzsimmons boys lived for many years in Newark and their many friends here will be grieved to hear of Henry Fitzsimmons' tragic death.

SQUIRE HORSELEY

Kissed Seventeen Year Old Bride—Husband Claims He Was Too Affectionate.

Lorain, O., Aug. 23.—Justice Horseley took advantage of the imaginary law that the justice trying the knot has the right to kiss the bride and now there is likely to be trouble, for it is alleged that the squire was too affectionate in availing himself of the opportunity to kiss a pretty young bride, who is not more than 17 years old. Harry Herman and Myrtle Smith of Payne avenue, this city, have been sweethearts for some years. The passion became so strong a few days ago that they procured a license and were wed. At the probate court they represented themselves as of age, but the parents claim they are 17 each, and now the parents are trying to break up the wedded bliss of Harry and Myrtle because they are not old enough.

HEAVIEST RAIN IN KANSAS CITY

Kansas City, Mo., Aug. 23.—The heaviest rain ever recorded here fell early today. The precipitation was five and ninety hundredths inches. Considerable minor damage was done. Several feet of water backed from sewers into the Kansas City Star building flooding the machinery. Practically every car line in town was put temporarily out of service. Southwest boulevard valley was submerged. J. C. Morse, brother-in-law of the late Senator Hanna, died at Cleveland

COIN MAKERS IN THE TOILS

Secret Service Officials Make Several Important Arrests.

SPOIL PLOT AGAINST CASTRO

Funds to Finance a Revolution in Venezuela Were to Be Raised by Counterfeiting Coins of That Republic—Man Involved in the Enterprise Turns Informer.

New York, Aug. 22.—Much importance is attached to the arrests made in this city of men believed to be implicated in a plot against the Castro government in Venezuela.

So important do the federal authorities regard the arrests that Chief Wilkie of the secret service came over from Washington to be personally on the ground when the men were apprehended. With Chief Wilkie was a foreign looking man who was said to be secretary of Venezuela's legation.

The men under arrest are Captain George Boynton, former resident manager of the Orinoco corporation of Venezuela, and L. R. Boason and L. M. Thompson, an attorney of this city. Both prisoners were admitted to bail in \$5,000. Joseph Keller and Sidney A. Keller of Keller Brothers, diemakers, were also arrested in connection with the same. They were held in bonds of \$1,500 each, and gave bail.

The two principals in the case aver that the plan to duplicate Venezuelan money is not counterfeiting. If the revolution proved successful, they said, it was expected to legalize this issue of money both by executive decree and by act of the Venezuelan junta. The accused men characterize this plan as a "war measure." They also allege that half of the South American risings are similarly financed.

Captain Boynton, it is said, for years was local and resident manager of the Orinoco concession, capitalized at \$5,000,000, and controlling practically the entire Orinoco delta. It is charged that Captain Boynton came to New York in June to get the alleged revolution on foot he undertook to put in operation a plan similar to that whereby the revolution against Dom Pedro in Brazil was said to have been financed, and that turning dies, buying bullion, and getting out what silver coin was necessary. Later, if the movement proved successful, the issue could be legalized; if unsuccessful, no one would be injured, it was argued, as the coins were to be made of the same fineness as those regularly coined by the government.

In some way Captain Boynton met Thompson, an old acquaintance, and interested him in the revolution. The captain said he wanted to find a man who would advance \$10,000 with which to buy the silver bullion. To such a man, the captain said, the sum of \$50,000 would be returned if the movement against Castro proved successful. Thompson had difficulty in interesting men of means and finally approached some men, described as sporting men. One of these called to see Chief Flynn and talked with him about it.

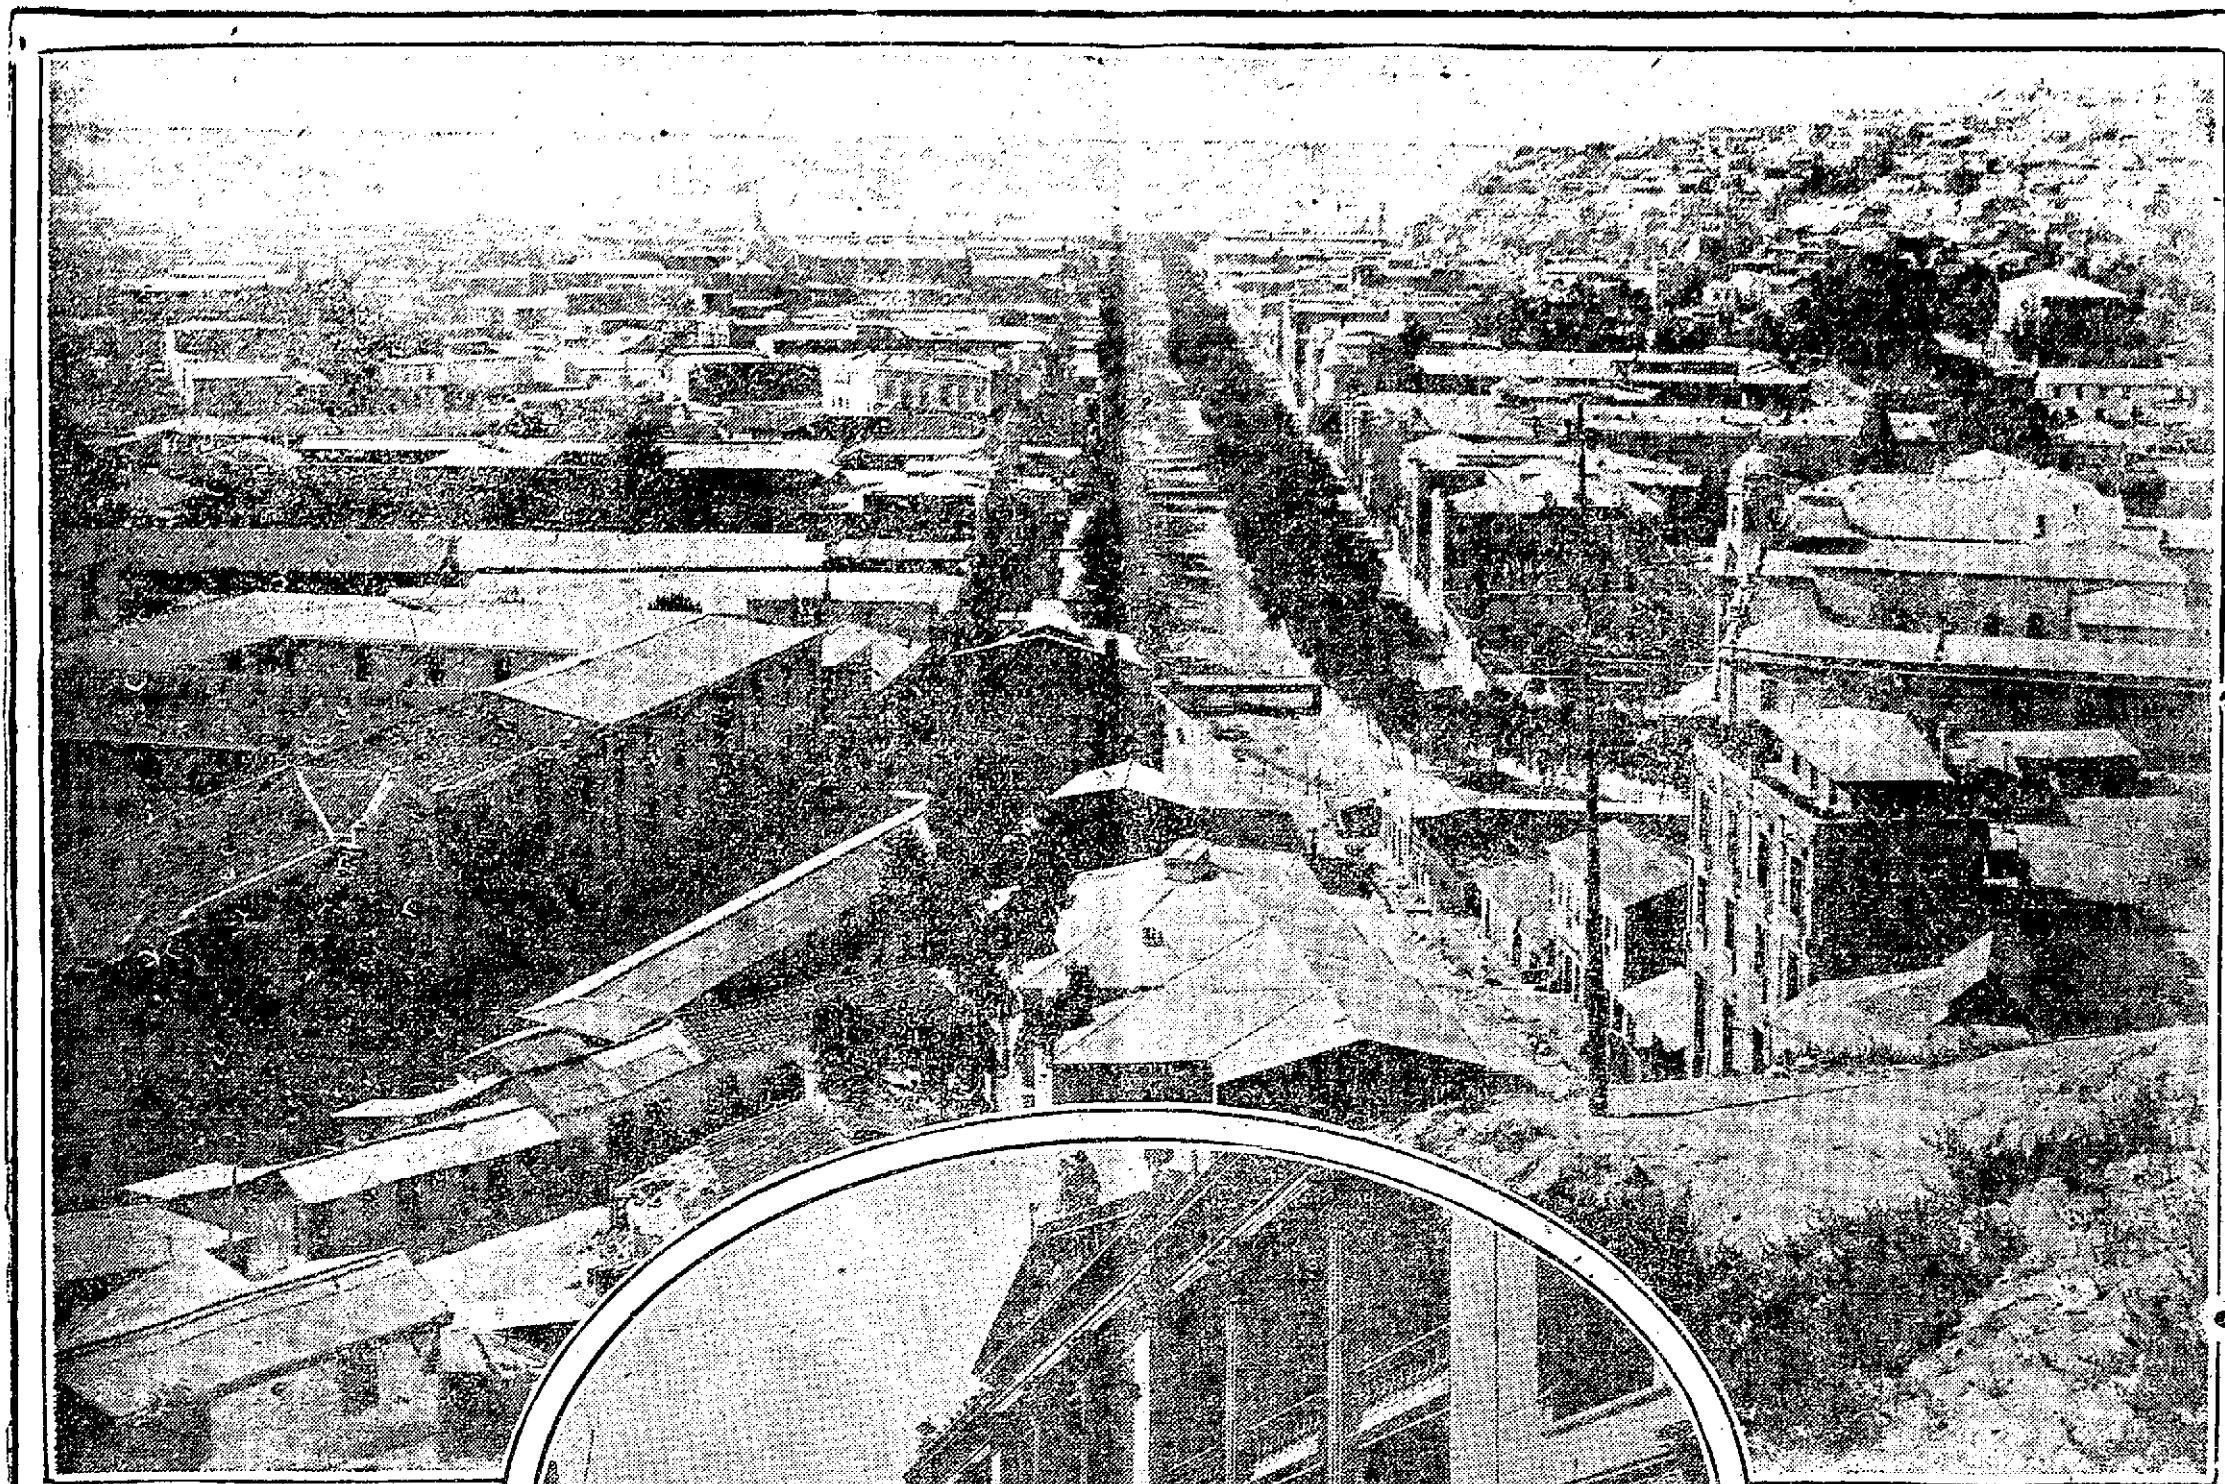

There is a federal law protecting the coinage of other nations, and Chief Flynn decided to investigate. Through agents he gained the confidence of Boynton and to them the latter confided his plans. Dies were to be secured in New York and with \$10,000 worth of silver bullion they were to go to a place in the delta of the Orinoco and there coin the money. As soon as the \$20,000 made from the silver purchase had been expended another purchase of \$40,000 of silver bullion was to be turned into \$30,000 of Venezuelan money. With this money munitions of war, ships and other things necessary for a revolution were to be purchased, the captain declared. Chief Flynn's agents asked to see the dies, and the captain acquiesced. When all seemed harmonious and working favorably Chief Wilkie and Flynn made the arrests.

Physician Soaked For Extortion. Chicago, Aug. 22.—Dr. Francis Stewart, recently convicted on a charge of robbery, was sentenced to an intermediate term in the penitentiary. The physician's attorney asked 30 days' leave to file a bill of exceptions, and the prisoner was released on bonds. Dr. Stewart is alleged to have robbed Felix Berard of Montreal, Canada, of \$110, when the young man came to his office seeking treatment for a disease Oct. 1, 1905. After a consultation lasting a few minutes, according to the complainant, Stewart demanded \$110. Threats were made by the physician against him. Berard declared, and he gave up the money.

McDowell Succeeds Barr. Lexington, Ky., Aug. 22.—W. A. McDowell, assistant engineer of the Lexington & Eastern railway, was appointed to succeed the late Roger S. Barr both as a director and general manager of the road.

Captured in Colorado. Denver, Aug. 22.—T. Milton Morris, charged with embezzlement of \$1,500 from the Robinson Grocery company of Birmingham, Ala., by whom he was formerly employed, was arrested in this city.

PURITY.

The funeral of Burr Van Wey who died of typhoid fever at his late home near this place last Friday at 4 p. m., took place from Eden church at 1 p. o'clock Sunday forenoon, the Rev. Neuzan conducting the services. The deceased was a hard working and prosperous farmer, honest and respected by all who knew him. He united with the Church of Christ in 1888, and died in the same faith, leaving a dear son in the Eden church at the time of his death. Mr. Van Wey was 56 years old, and is survived by a wife, two sons, Homer and Howard Van Wey, and five daughters, Mrs. Oren Hall, Mrs. Jacob Mills and the Misses Belle, Mary and Anna Van Wey. Two sisters and one brother also are left, together with a number of other friends and relatives to mourn their loss.

FRAUD CHARGES

Preferred Against Chicago Men Who Floated Mexican Schemes. Chicago, Aug. 23.—Operations of the Tabasco-Chiapas Trading and Transportation company and the Lu-Me Mills company, Mexican investment concerns, with offices at 18-20 River street, were stopped by the United States postal authorities. Henry D. Bushnell, president, and I. B. Miller, secretary and treasurer, were arrested and arraigned before United States Commissioner Foote, who held them in bonds of \$2,000 each and continued the case until Aug. 31. It is declared by the postal authorities that the operations of Bushnell and Miller, which cover a period of five years, netted them \$285,000 from innocent investors. Together the two companies were capitalized for \$2,000,000. According to the literature of the two concerns they operate large coffee plantations and own several lines of steamers. The postal authorities declare such is not the case, and that Miller and Bushnell have been paying dividends to investors from money taken in for stock in the companies. It is claimed investors in all parts of the country were defrauded.

THE FIRST OF FINE CHAPEAUX.

The latter part of August usually in-
troduces the first of the felt chapeaux
the initial display of those fascinating
shapes which the world feminine will
disport a few weeks later on. Those
who are wise in their day and genera-
tion, when the time comes to discard
headgear of the brilliant summer time,
will adopt those later manifestations
in felt rather than renew the straw
hats which glorified the burning days
of June and July.

For use with the shirtwaist suit or
with the tailor-made the model that
forms the subject of illustration is one
that will commend itself to the fas-
tidious dresser. Of a shape that will
prove almost universally becoming and
presented in a host of novel tints and
nuances of the mode, its very simplici-
ty is one of the best recommendations

to the fashion wise. Fashioned some-
what upon sailor lines the presence of
a bandeau in the back and the lifting
of the brim sharply to the crown at
the left side makes for some variation
in a mode that has threatened to be-
come somewhat more than monotonous.

As presented, it is in a light
shade of cafe-au-lait felt—more milk
than coffee, though—and simply, al-
most severely, trimmed with a cream-
white satin chiffon ribbon. The bow
points distinctly toward the back, the
bandeau is covered with closely crush-
ed loops of the same ribbon and a
black buckram buckle shape is covered
with the black and white striped broad-
cloth that is so effectively used for collar
and cuffs upon the tailor-made that

Montgomery Reunion.

The Montgomery family, one of the
most numerous in Licking county, is
holding its annual reunion at Idle-
wild Park today.

Little Boy Lost.

A little boy scarcely three years
old, was found walking aimlessly
about on the public square Thursday
morning, and was crying piteously to
be taken to his home. Constable
William Brooks happened to be driv-
ing by and noticed the little fellow
and took him in his buggy. By close
questioning and many inquiries he
finally learned that the boy's parents
resided on Railroad street. After
that it was easy and the child was
soon in the arms of its mother, who
was nearly frantic over the little
one's disappearance from home. A
number of people had been searching
for the child for some time when it
was found by Mr. Brooks.

Henry Kampf Honored.

Henry Kampf of Piqua, O., who
was elected secretary of the Demo-
cratic state central committee at-
tended school at Granville about 13
years ago. Mr. Kampf is a success-
ful newspaper publisher at Piqua.

Mr. Haughey Very Ill.

Mr. Norton Haughey, who under-
went an operation at the Grant hos-
pital, Columbus, Wednesday, at the
hands of Dr. Baldwin, passed a very
bad night. Thursday morning, how-
ever, Dr. Nichols, the local physician
who has charge of the case received a
telegram from Dr. Baldwin stating
that the condition of the patient had
considerably improved.

A Pleasant Surprise.

A very pleasant surprise was
sprung upon Mrs. Sarah J. Ramsey of
Frazzysburg R. F. D., No. 9, August
18, by her daughter, Violet. The oc-
casion was Mrs. Ramsey's 59th birth-
day anniversary. Mr. and Mrs. Ram-
sey were sitting in their home when
their friends and relatives began to
come in with well filled baskets. A
very delightful day was spent. The
guests were Mr. and Mrs. James E-
vans, Mr. and Mrs. George McKee, Mr.
and Mrs. Daniel Cochran, Mr. and
Mrs. Jacob Ashcraft, Mrs. J. E.
Seaton, Mrs. Marion Blizard, Mrs.
George Mortimer and son Edgar, Miss

The Signs of Heart Trouble

You can Surely Secure Heart Health
and Strength through Dr. Shoop's
Restorative.

Heart weakness which can be dealt with at
all is nerve weakness. Just as your hand trem-
bles when you are nervous, so your heart
beats weak when you are nervous and palpi-
tates. Other signs of heart trouble are: short-
ness of breath, a special pain or tender-
ness about the heart caused by irregular heart
action; choking sensation as if the heart was
in the throat; unusual sensation in the
chest, showing that the heart is not
working right. There is nothing in the
world so common as a weak heart. It is
natural and normal. It is the heart that
brings back the blood to the brain. Can you
imagine how important it is? Can you
imagine how much it affects the whole body?
The heart is the center of the system. It
beats always. There is nothing in the
world so common as a weak heart. It is
natural and normal. It is the heart that
brings back the blood to the brain. Can you

It is quite the thing now for Republican Congressmen accused of being friendly to corporations and of aiding to defeat the bill prohibiting trusts from contributing campaign funds, to answer their critics by referring to President Roosevelt's promise that they will do better next session. But all the same when the next session arrives new deals will have been made between the trusts and these same Republican Congressmen. The trusts will put up their campaign contributions as usual, for which the Republican Congressmen will be under renewed pledges to give the aforesaid trusts the protection they will have paid for.

Pittsburg Republican milltoires are making themselves very conspicuous these days, what with marrying actresses and their bank cashiers turning defaulters.

The Government Printing Office spends \$30,000, says former foreman Milo Shanks, for spying on the employees. When you get a Republican political machine like the G. O. P. at work, it is costly and leads to all kinds of outrages on the workmen.

Wheat has declined in price ten cents a bushel and cotton and corn are getting cheaper and yet the Republicans declare that the tariff protects the farmer.

Paterson, N. J., factory girls have struck, because their wages have been reduced to \$4 a week. Thus is Republican prosperity and tariff protection not standing pat on wages.

To All Democratic Voters.

Washington, D. C., Aug. 12.
If there ever was a time in the history of the Democratic party for the manifestation of loyalty and patriotism on the part of its members, it is right now.

If we are to win a victory and elect a president two years hence, we must first elect a House of Representatives this fall. A Democratic House can and will investigate every department of the government. With all of them honeycombed by "graft," the edges of which, only, have been touched by recent exposure and prosecutions, there will be a revelation of rottenness that will astound the country and create a demand for a Democratic administration to clean the government workshop.

To win the House we need money to defray legitimate expenses and get out our vote. We have no protected monopolies from which to draw to fill our coffers, as they do those of the Republican party. We must, there-

fore, appeal to loyal Democrats for contributions.
Will you send us \$1.00 at once, and in return for this we will send you copies of our campaign literature issued by the committee. You will have the thanks of the entire Democratic party for your favorable response to our request.
Address all remittances to J. M. Gliggs, Chairman, Munsey Building, Washington, D. C.

REPUBLICANS

In Nebraska Name Candidate for Governor and Express Choice for U. S. Senator.

Lincoln, Neb., Aug. 23.—After the temporary organization was made permanent, the Republican convention voiced its disapproval of the platform drafted by a committee appointed in advance and a new committee on resolutions was selected. The following were placed in nomination for United States senator: Norris Brown of Buffalo county, Edward Rosewater, the Omaha editor; Frank M. Currie of Custer, Joseph H. Millard of Douglass, George D. Melkijohn of Nance, Lorenzo Cronun of Douglass and L. J. Evans of Platte. The result of the first ballot was: Brown, 401, Rosewater, 273½; Currie, 55; Millard, 46½; Melkijohn, 31; Cronun, 16; Evans, 21, Mickey, 1. Other ballots followed with but little change until the sixth, when Brown received 433 votes, four more than enough to nominate. Candidates for governor were then placed in nomination, State Senator George L. Sheldon was nominated on the second ballot.

HOKE SMITH

Has Walk Over in His Contest for Governor in Georgia—Returns Are Incomplete.

Atlanta, Ga., Aug. 23.—Although the returns are far from complete, the result of the Democratic primaries in Georgia seem to have resulted in favor of Hoke Smith for governor. Unofficial returns from 90 of the 145 counties in the state have been received. Of these Smith is reported to have carried 83. Fulton county, the home of Clark Howell and Hoke Smith, is claimed for Smith by 1,500 majority. Hoke Smith carried not only a majority of the 145 counties, but has a majority over all opposing candidates which will insure his nomination on first ballot in the state convention. James Smith is reported to have carried McDuffie county, the home of Tom Watson, who was allied with Hoke Smith in this campaign. In the city primaries W. R. Joyner was nominated for mayor by the narrow margin of 255 votes.

Beveridge Spoke.
Portland, Me., Aug. 23.—The Republican campaign in the first congressional district was formally opened here with a rally at which Senator Albert J. Beveridge of Indiana was the speaker. Senator Beveridge discussed national affairs and urged that congressmen and senators be elected who will aid President Roosevelt and aggressively support his policy.

Bryan's Reception at New Haven.
New Haven, Conn., Aug. 23.—Arrangements were begun for the local reception of William J. Bryan Aug. 31. Governor Roberts, being unable to represent the state, selected Lieutenant General Woodruff to act in that capacity at the luncheon which is to be given Mr. Bryan.

Change in Committee.
Columbus, O., Aug. 23.—At the meeting of the Democratic state central committee Judge D. L. Rockwell contested the election of S. G. Rogers as committeeman for the Nineteenth district. Rogers was unseated and Rockwell recognized as the committeeman for that district.

Campbell Renominated.
Paulding, O., Aug. 23.—The Fifth district Republican congressional convention renominated W. W. Campbell of Napoleon for congress.

Convention Deadlocked.
Youngstown, O., Aug. 23.—The Republican convention of the Eighteenth congressional district, deadlocked after casting 65 ballots.

Costa Ricans Caustic.
San Jose, Costa Rica, Aug. 23.—At a preliminary meeting of the American club the views and objects of that organization were formulated. It is declared to be the purpose of the club "to work for the union of Latin America and to be prepared to oppose the United States in its work of annihilation of Latin-American commercial independence." The Monroe doctrine, in President Roosevelt's point of view, is declared to be a menace to all Latin-American countries. The program adopted declared that the association is not formed against the United States, but in opposition to the alleged purpose of that country. The motto of the club, which it proposes to conduct a propaganda, is "Latin-America for the World, and the World for Humanity."

MR. F. P. COPPER IS TO LIVE HERE

DIVISION PASSENGER AGENT WILL BRING FAMILY TO NEWARK.

C. N. Posegate, Former Granville Boy Takes Position With B. & O. Here—Railway Items.

New Division Passenger Agent F. P. Copper was at his office this morning Thursday arranging his plans for the work in his new line of duties. In conversation with an Advocate man Mr. Copper stated that he was much pleased with the idea that his headquarters are to be in this place, as he preferred it to Columbus for numerous business reasons, chief of which is the fact that he is in direct touch with the superintendent of the division here and can save time in transactions which require haste.

Mr. Copper's position is one of responsibility but one for which he is completely competent. His duties consist chiefly in a general supervision of the agencies of the division. Mr. Copper's family will move to this city from Tiffin, where they have resided for the past 22 years, in the near future. Mr. Copper's elder son is married and has his residence in Tiffin, so that just the one son will accompany Mrs. Copper to this city. Further details of the plans of the department here will be learned on the return of the general passenger agent, who is now on his vacation.

C. N. Postgate Here.

C. N. Postgate arrived in this city Wednesday from the Cleveland division, having been located in Cleveland in the capacity of assistant division engineer for some time past. Mr. Postgate comes to the C. & N. division as the successor of Assistant Engineer Barrett who has been promoted to division engineer with headquarters at Wheeling.

Mr. Postgate has a number of acquaintances in this city and in Granville, having graduated from Denison six years ago. He is a member of the Beta Theta Pi fraternity.

New Passenger Agent.

Columbus, Aug. 23.—Frank P. Copper, the new district passenger agent of the B. & O., headquarters at Newark, whose jurisdiction has been extended to cover Columbus, was in the city yesterday, but he had no information to offer regarding the expected appointment of a new city passenger agent here. He said B. N. Austin, general passenger agent of the B. & O. at Chicago, was away on his vacation and that nothing would be done in the matter until he returned. Mr. Austin, he said, would probably confer with O. P. McCarty, general passenger agent of the B. & O. S. W. at Cincinnati, and they would decide upon a man to act jointly as city passenger agent for the two systems here.

Honolulu, Aug. 23.—The Manchuria remains on the reef where she struck. Anchors are being put out to prevent her drifting farther toward the shore. It is believed she can not be floated before the arrival of assistance from the Pacific coast, if ever.

Tried to Poison Trepoft.

St. Petersburg, Aug. 23.—A story is in circulation here to the effect that an attempt was made to poison General Trepoft, commandant of the imperial palace, whose illness is just announced. It is also reported that the general's cook and three other servants were arrested.

TIGER TAMER MAY DIE OF INJURY SAYS DOCTOR

New York, Aug. 23.—Owing to the wounds inflicted by Empress, a Bengal tiger in Bostock's arena, Sunday afternoon, Herr Hendrickson, a tiger trainer, is confined to his bed with a threatened attack of septic poisoning, and the tigers will be retired to their cages for the remainder of the season. Hendrickson was the only trained animal act in the world exclusively

composed of tigers, and until he recovers sufficiently to re-enter the arena, animal showdom will be without a performance of this kind.

Dr. Frank E. Smith, the trainer's physician, says that "Hendrickson would be fortunate if he escaped septic poisoning, as the scratch from the claw of a lion or tiger is most likely to produce this condition. In the fore part of Hendrickson's right forearm, immediately below the elbow, there is a laceration that exposed the bone, and when operated upon required eight stitches.

Bostock had engaged Hendrickson and his tigers to appear with Hagenbeck's circus in Berlin at the end of the Coney Island season, but the trainer's accident makes the fulfillment of this booking problematical.

Deafness Cannot be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a humming sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. NEVER THOUGHT OF IT SAYS ICKES

EX-POSTMASTER CALLS STORY IN COLUMBUS PAPERS A "PIPE DREAM."

Incidentally Former Newark Editor Expresses His Opinion of U. S. Senator Foraker.

The Columbus papers last Sunday printed a story saying that ex-Postmaster, Joseph M. Ickes was in the market for a Columbus newspaper. The Advocate printed what the Columbus Dispatch had to say. Concerning the matter Mr. Ickes has given out this red hot interview at Mt. Vernon:

Mr. Ickes said: "The article in the papers were misleading in that I am in the market for a newspaper. Early this summer with a number of friends I tried to buy a Columbus Republican paper, but it was not for sale and I am not now in search of a newspaper.

"The pipe-dream of the Columbus papers, the Journal and the Dispatch, which originally published these stories, although they were informed that there was no truth in them, must have been the result of numerous and high charged mixed drinks.

"I have never contemplated purchasing the Press-Post and am not negotiating for it, and have never been approached by any of the interests referred to. The idea that I would be chosen to represent the brewing interests is as plausible as to have the Catholic church choose a Methodist bishop for Pope of Rome, and either of these contingencies is fully as reasonable as to suppose that I would represent Senator Foraker's political interests, for I am too well acquainted with this political croquet, and he with my views of his usefulness to the Republican party, in spite of his great ability.

"No, just say that I am not buying any newspapers and if I ever do, it won't be for the corporations, the brewers and Senator Foraker."

He Was in Trouble.

"I was in trouble, but found a way out of it, and I'm a happy man again, since Dr. King's New Life Pills cured me of chronic constipation," says E. W. Goodloe, 107 St. Louis St., Dallas, Texas. Guaranteed satisfactory. Price 25c at F. D. Hall's drug store.

MAUD'S IRE

Arose When She Smelled Gasoline and She Put the "Bubble" Out of Business.

Lexington, Ky., Aug. 23.—The tables were completely turned here when W. B. Wilkerson, owner of an automobile, had W. M. Sellers, a milk wagon driver, arrested for alleged injury to his machine.

Sellers stopped his wagon directly in the rear of the auto, and when the mule smelt the odor from the horseless vehicle she pounced upon it with both feet. When Sellers and several bystanders had extricated the animal the machine was damaged almost beyond repair.

Sellers was held to the grand jury on a charge of injuring private property.

LOMA CULT

Admired by Gage Who Denies That He Has Joined—Ex-Secretary in Fine Health.

Chicago, Ill., Aug. 23.—Lyman J. Gage is here on personal business, and expects to return today to his new home near Point Loma, Cal., now, as he explains, because he has embraced the theosophical cult of Mrs. Tingley, but because he thinks he has found the most delightful part of the whole country to dwell in. In conversation with Chicago friends Mr. Gage said he considered theosophists a remarkably interesting group of people, possessed of unusual mental attainments.

Mr. Gage is visiting at the home of E. F. Pierce, cashier of the State Bank of Evanston, the husband of Mr. Gage's stepdaughter.

Mr. Gage said: "There is no subject upon which at this time I wish to express any view."

Mr. Gage is looking very well," said Mrs. Pierce, through whom Mr. Gage made the statement.

"I do not know when I have seen him in more robust health."

To his friends in Chicago Mr. Gage has spoken frankly of his attitude toward the Point Loma cult.

"He has not joined the cult," said one friend. "He denied that positively. He has decided to make his home near Point Loma merely because he thinks it the most delightful place in California in which to reside. He has worked hard for many years, and believes he is entitled to rest now, and the best place in which to rest seems to him his new home near Point Loma."

CARD OF THANKS.

We desire to extend our sincere thanks to our many friends for the many kindnesses shown up at the death of R. A. Smith. E. H. Smith and family.

DEATHS AND FUNERALS

DANIEL ROACH.

Mr. Jerry Roach, supervisor of the C. & N. division of the B. & O. railroad, received a telegram from Jarvis Cairn, commanding Company C, of the First Battalion of Engineers U. S. A., at Fort Mason, Cal., that his brother, Daniel Roach, a member of that company, died August 22, and asking what disposition should be made of the remains. Fort Mason is at the Presidio, the military post at San Francisco. Daniel Roach was a Newark boy, his father for many years having been a valued employee in the road department of the B. & O. railroad at this point. Daniel was employed at the Everett glass works here, and served an enlistment in the United States navy, being at one time a shipmate of Harry McManus, on the monitor, "Amphitrite." Mr. Jerry Roach made a request for the shipment of his brother's remains to Newark at once.

MISS SARAH RIAN.

Miss Sarah A. Rian died at her home in Madison township at 12.10 Thursday at the advanced age of 87 years. The deceased was one of the best known residents of this part of the county and was most highly respected. The cause of death was paralysis. The deceased leaves five brothers, Jacob, of Indiana, R. B. and Milton of Madison township and A. J. and William Rian of this city. The funeral service will take place from the late home Friday at 10 a. m., and will be conducted by the Rev. W. W. Rees of Brownsville. Interment will take place in the Shannon cemetery.

W. B. DOWD'S FUNERAL.

Mr. James McGough left for Mt. Vernon to attend the funeral of his father-in-law W. B. Dowds, who died at the home of his son in Crestline. The funeral was held in Mt. Vernon Thursday afternoon.

HARRY F. SPELLMAN.

The funeral of the late Harry F. Spellman who died at his home north of Granville, took place from the home on Thursday afternoon at 1:30, the service being conducted by the Reverend A. H. Lathrop of Johnstown.

MRS. MARTHA APPIS.

Cambridge, Aug. 23.—The remains of Mrs. Martha Appis, who died at the home of her daughter Mrs. Amanda Bonnell, about five miles north of Newark, after a long illness of diseases incident to old age were brought here Wednesday and taken to the Center Baptist church, where funeral services were conducted by Rev. D. E. Garman, pastor of the First Baptist church. Mrs. Appis was 76 years of age and until recently resided in Washington, Guernsey county. She was well known in this city.

EXPLOSION

Injures Five Men, Two of Whom May Die, and Wrecks Big Electric Plant at Marion.

Marion, O., Aug. 23.—The big power plant of the Marion Railway Light and Power company was wrecked at 9 o'clock last night by the explosion of a 300 horse power boiler. Five men were injured, two possibly fatally, and the city was left in darkness. The lives of hundreds of persons were endangered by the fall in net work of wires in the vicinity.

The entire end of the brick building was blown out, burying Clarence Dutton, aged 21 years, and Gottlieb Treftz, aged 48 years, beneath the debris. Young Dutton was at the plant visiting his father, G. F. Dutton, a fireman, who was slightly injured. He became almost wild with grief upon learning that his son was buried under the wreckage. Bert Riley, aged 39 years, another fireman, was hit on the head by a flying brick, but will recover. William McCall, engineer, and Howard Ramsdell, chief engineer, were overcome by heat in trying to rescue their fellow employees. Fire Chief McFarland, before the arrival of the ambulances, conveyed two of the injured men to a hospital.

The explosion, which shook the entire city, set fire to a large barn near the county jail, creating a panic among the prisoners, who implored Sheriff Brown to release them.

The loss is estimated at \$50,000.

CHEERS

From a Chicago Crowd Greeted the Teamster as He Dealt His Opponent a Death Blow.

Chicago, Aug. 23.—A large crowd of commission men and passersby yesterday afternoon saw Felix Black, teamster, employed by O'Hearn Bros. commission men, on South Water street, strike and kill in a fight Noah N. Yantis with a terrific blow of his fist.

Black became enraged in a quarrel with Yantis who was a driver employed by the United States Express company concerning the right of way. The men fought and Black struck Yantis half a dozen times before the man fell, fracturing his skull.

Brokers and drivers cheered the combatants. Policemen guarding the nearby crossing hastened to the scene, but before they arrived the fight was over and the driver, a large, heavy muscled man, was lying dead on the pavement. Black was locked up.

SON-IN-LAW

"Remembered" in Wesson's Will Although He Will Get None of the \$25,000,000 Estate.

Springfield, Mass., Aug. 23.—The will of Daniel B. Wesson, the famous revolver manufacturer, who died August 4 of fright caused by Black Hand communications threatening to dynamite his palatial home, has been filed. Mr. Wesson left an estate estimated at upward of \$25,000,000. His will makes public bequests of \$650,000, all to hospitals, and legacies to his children, grandchildren and great-grandchildren aggregating \$5,000,000. The residue of the property becomes part of the estate of Mr. Wesson's wife, whose death preceded his by three weeks.

Mrs. Florence A. Houghton, a granddaughter, who divorced a millionaire's son to marry a farm hand employed on the country place near Brattleboro, Vt., receives \$200,000. Her two children by her divorced husband, grandchildren of the millionaire, receive \$200,000 each, and a son by her present husband gets \$50,000.

The eccentric millionaire did not forget a former son-in-law, though he left him no money, a section of the will establishing the line of succession being qualified by the clause, "excluding always George J. Bull." Bull married Mr. Wesson's only daughter, who divorced him.

CUBAN CHIEF IS CONFIDENT

Does Not Fear Serious Result From Present Insurrection.

UPRISING SEEMS TO SPREAD

Capture of San Luis Gives Insurgents Base for Operations—Half the Rural Guards Stationed There to Defend the Town Deserted and Went Over to the Insurgents.

Havana, Aug. 23.—Despite the gravity of the Cuban uprising, government officials show no lack of confidence in their ability to conquer it.

General Rodriguez, commander of the rural guard, said: "Cuba is entirely competent to cope with the insurrection. The flood of rumors in all directions about the organization of insurrectionary bands in great numbers are not borne out by our reports, or so far as can be learned. The result of the encounter at San Luis is still not known definitely, but it is known that we inflicted some losses on the rebels in that vicinity. The much talked of movement in Santa Clara province has not been encountered, and no insurrectionists have been seen by our forces. We have equipped and sent out in various directions 300 volunteers under competent officers. We have plenty of arms and ammunition for all who enlist at present and more ordered from the United States. Besides, we have thousands of old but serviceable guns. We believe the loyal people are taking up arms for the government faster than the insurgents are increasing."

While the foregoing is typical of the utterances of the government officials, there are evidences of threatening increase in the numbers of insurrectionists. In the province of Santa Clara the disaffection is widespread, and in the province of Havana a great many people are in sympathy with the insurgents. In some cases whole communities seem to have been carried away by the reprecussence of insurrectionary times. The extent to which this will lead is still uncertain.

Eighty Cuban veterans have volunteered to use their influence for peace.

At the palace there is no sign of fear, but a disposition instead to minimize the importance of the capture of San Luis by insurgents, the statement being made that while the insurgents are in possession of the town, the rural guards in their quarters still hold out. The agent of the Western railway at San Luis station, which is over a mile from the town, reports that the town was taken by insurgents, who surrounded the station. The agent did not know the number killed or wounded, but believed it was small. The fight was quickly over. The garrison of San Luis is known to number less than 50. The population of the town is 5,000.

The capture of San Luis by insurgents in the province of Pinar del Rio, led by Pino Gerra, was effected only after a sharp engagement. Gerra is an ex-congressman and an influential man. He was thought to be many miles eastward. Scattered other insurgent bands also attacked San Luis, which is situated on the railroad about 10 miles west of Pinar del Rio city. During the engagement a number of men were killed or wounded. The town was defended by less than 100 rural guards, 50 of whom surrendered to the insurgents and are held as prisoners.

By the capture of San Luis the insurgents obtained an important base for future operations.

WANTS TO KNOW

Why the Fort at Brownsville, Tex., Is to Be Abandoned.

Dallas, Tex., Aug. 23.—Senator C. A. Culberson of Texas sent the following telegram to the war department: "In the papers here it is stated that Fort Brown will be abandoned, and I will thank you to wire me if this course has been determined. It is the duty of the United States to protect the frontier, and as Texas borders on Mexico it has always been deemed advisable to police the frontier with regular troops, including a station at Fort Brown. While conditions on the border have improved very much within recent years, this course is still advisable, and it would be regrettable that this fort should be abandoned because the people of a border city like Brownsville object to negro troops under circumstances of raid and murder such as recently occurred there."

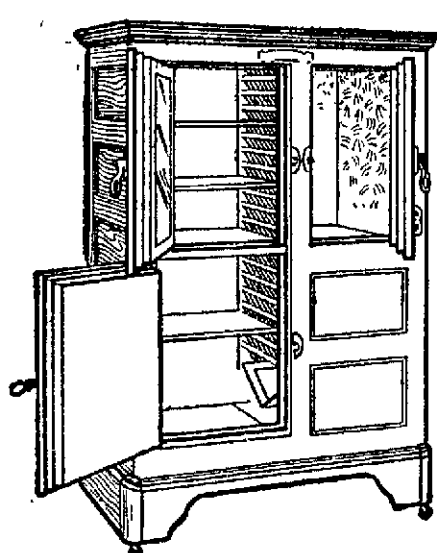

Senator Culberson declined to discuss the matter. He would only say that no reply had been received. He left here for New York and Washington. He goes to New York for the purpose of attending the reception to William J. Bryan, being a member of the executive committee. Although he did not so state, it is presumed his visit to Washington will be to confer with the authorities there regarding the Fort Brown matter.

NÖ HAM FOR HIM.

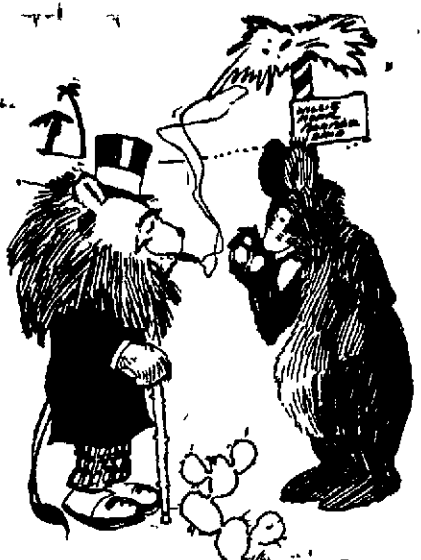

Mr. Porker—Say, waiter, bring me a sandwich and a cup of coffee.

Waiter—What kind of sandwich, sir?

Mr. Porker—Any kind, so it isn't ham.

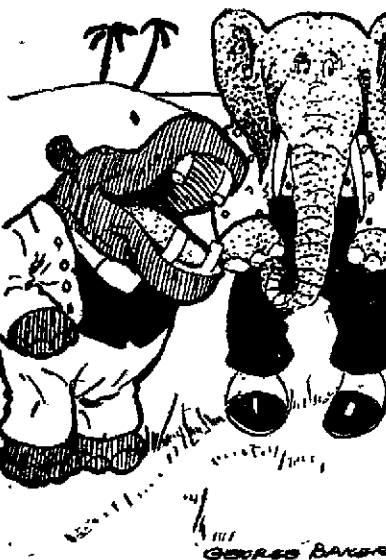

Mr. Hare—I'll bet that's just what my wife needs to build her up. I'll get a bottle.

A SAFEGUARD.

Mr. Bear—I see Willie Monk, the barber, has a coat of mail.

Mr. Lion—Yes; he has so many porcupine customers.

COURTING IN THE ZOO.

Mr. Jumbo—So you called on Miss Monkey last night. Make a mash?

Mr. Hippo—Two of them. Her little brother got under the sofa.

INSEPARABLE.

Noah—The ark will be crowded, and you animals must remember that you can't take any baggage with you.

Elephant—That's all right, but you don't get me without my trunk.

A SAFEGUARD.

AMUSEMENTS

VOGEL'S MINSTRELS.

If the late Uncle Dan Emmett, had been occupying a box at the Auditorium last night when the curtain was raised on the first part of the Vogel minstrel show, he would probably have rubbed his eyes vigorously and wondered if he was not in the minstrels' heaven. To say that the setting of the first part of this famous show was dazzling, inadequately expresses the beauty of the setting and no words in the English language will describe the scene.

Instead of the common painted scenery which generally adorns the stage in the average minstrel first part, the drops and wings were made of innumerable strands of what looked from the audience like crystal beads of many colors. Beautifully tinted lights artistically set off the stage settings and the vari-colored "spot lights" thrown from a machine in the balcony produced a beautiful effect.

The costumes worn by the entertainers were also very handsome, and as each man in the cast was an artist in his line, the entertainment was the finest seen at the Auditorium or many months.

At H. Tyrrell, the premier of all minstrel comedians, was of course the big feature of the show and his funnyisms were well worth the price of admission. The jokes were new and the songs were the latest. The specialty work was of the highest order and it would be difficult to pick out any individual who excelled any other. Round after round of applause greeted each number and aside from the big ovation given Al Tyrrell the honors of the evening were equally divided. The audience, while not a mammoth one, was appreciative and Manager Matthews states that this is only one of the big successes which the Auditorium patrons will see this season.

RIVAL GAS CO. IN ZANESVILLE

PEOPLE AROUSED OVER THE INCREASE IN PRICE SEEK NEW SOURCE OF SUPPLY.

Granville Field to be Tapped Soon—Council Stands Ready to Grant New Franchise.

Zanesville is going after a new supply of natural gas. The fire of business and manufacturing men of that city, says the Zanesville Times-Recorder, has been aroused by the recent raise in the price of fuel by the Ohio Fuel Supply Co. and efforts are now being turned towards the bringing of another company into Zanesville. It is not improbable that one may be secured.

Since the raise in the price by the operating company a number of meetings of pottery and manufacturing men have been held. A number of visits have also been made out of the city to consult with rival gas companies to the Ohio Fuel Supply company elsewhere.

Not long ago a visit was made to the general offices of the Ohio Fuel Supply Company in Columbus, where it was learned that the raise in price is and will be. Seeing that little or no consideration is forthcoming a rival company is being sought. Council, it is said, stands ready to grant a franchise.

Right at the present time the greatest prospects for securing other natural gas is brightest in the Newark and Granville fields. It is said capitalists interested in these fields look with favor on the proposition and are soon to visit Zanesville to look over the ground.

In the event of a rival company is brought into Zanesville it is said their pipes would be laid down the alleys, avoiding the tearing up of the streets. Should a decision be reached to enter Zanesville with gas and a franchise be granted it is assumed the business men that all pipes necessary to supply the manufacturing interests could be laid inside a period of 90 days.

SURPRISE PARTY.

St. Louisville, Aug. 22—The home of Mrs. David Bullock south of this village, was the scene of a pleasant surprise Sunday, August 19. The children and grandchildren gathered together to celebrate the 82d anniversary of Mrs. Bullock's birth. The day was one long to be remembered by those present. At noon all sat down to a splendid dinner. The day was passed in social conversation and music. They all departed wishing Mrs. Bullock many happy returns of the day. Those present were Mrs. J. M. Spence and son Shirley of Mt. Vernon, Mr. and Mrs. Lacey Gill of Sunbury; Mrs. Frank Hamilton and daughter Emily of Newark, O.; Mrs. Ernest Wright and children, Edith, Harry and Clark of Utica; Mrs. Lee Martin of near Utica; Mr. Henry Rifeley the only brother of Mrs. Bullock living, of Highwater, Dr. and Mrs. Rutledge and children, Roland and Beatrice, of Johnstown, Messrs. Frank and Cary Corbett of St. Louisville, Mr. and Mrs. Samuel Bullock of St. Louisville, Mr. and Mrs. Isaac Bullock and children, Lawrence V. Leslie.

MICHAEL F. DWYER, DEAD.

New York, Aug. 22—Michael F. Dwyer, the heavy and for 16 years the most successful turf plunger in America, died Sunday in his home in Gravesend avenue, Brooklyn, of a heart attack. For five years he had been paralyzed.

From 1878 to 1890 Michael F. Dwyer was the foremost figure on the American turf. He and his brother, "Phil" Dwyer, in partnership until 1890, owned horses which won all the great races of that time and which became the great grandfathers of the most famous races of the last 15 years.

Broken in health and fortune, "Mike" Dwyer never lost the reputation for integrity and coolness which were his when he was betting \$50,000 to \$100,000 on Haver, \$50,000 to win \$500,000 on Joe Cotton, and when he could not raise enough money to save his last horse, Pon Ronald, from sale after a sale.

JOBBER BUYING WEHRL STOVES

THERE HAS BEEN NO CHANGE IN WORKING TIME SINCE LAST APRIL.

Foundry Was Closed on Thursday on Account of their Big Picnic at Idlewild Park.

Several rumors regarding the Wehrle plant were in circulation over the city Thursday in which it was stated that the plant had decreased the working hours in a week, the employees of the molding room being unable to get in but four days out of the six days of the week. Mr. Wehrle who was interviewed Thursday afternoon, denied this statement, saying that there has been no change in the working hours since April.

It was also stated that the company is now soliciting the jobbing trade, and that the product was no longer contracted for by the Chicago firm which has been handling the output of the factory. Mr. Wehrle stated that this report was wrong and the only reason the foundry here is soliciting business from the jobbing trade is because the plant had increased its capacity to such an extent that it can now handle the additional business. Heretofore, it was impossible to supply the demand of the Chicago firm alone, without the additional business of the outside jobbing trade.

The big foundry was closed down Thursday owing to the big picnic at Idlewild.

THE W. C. T. U.

A large crowd gathered Tuesday afternoon to participate in a meeting held at the church parlors. This was a very successful meeting, the name being Due-Dea, something different from what has been held. Rev. Mrs. Swartz led the devotional. After this an excellent program was rendered, Prof. Flora and Mrs. Bennet singing some very pretty selections.

The next meeting will be held at the home of Mrs. Cripps, 63 Neal avenue. On the fourth of September the annual election of officers will take place. It is greatly desired that the members all be present at this election.

TEACHER'S INSTITUTE.

Mr. Saunders, a former schoolmaster, told the British House of Lords committee on juvenile smoking that he could detect smokers by their handwriting—that of boys who smoked being of a loose, flabby kind. Handwriting, he said, was a cinematograph of the heart.
